## 4. Chapter: Anthropology Biology & Culture

### 1. Anthropology Biology & Culture Questions

#### 4.1.1. Which of the following best characterizes the relationship between ...

Author: Richley Crapo

Which of the following best characterizes the relationship between biology and culture?

Please choose only one answer:

- Biology makes culture possible and determines its specific contents.
- Biology makes culture possible but does not determine its specific contents.
- Since culture is based on learning it is not made possible by biology.
- The distinction between culture and biology is a false dichotomy, since culture is merely our species' biological predisposition.
